

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for permitting of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-03-09-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to air.pollution.control@TN.gov or Ms. Michelle W. Owenby, Director, Division of Air Pollution Control, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, 15th Floor, Nashville, Tennessee 37243 within 30 days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Construction permits issued by TDAPC do not grant any authority operate, construct, or maintain any installation in violation of any law, statute, code, ordinance, rule, or regulation of the State of Tennessee or any of its political subdivisions.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 22nd Floor, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, Nashville, TN 37243, (615) 532-0207. Hearing impaired callers may use the Tennessee Relay Service (1-800-848- 0298).

The applicant is University of Tennessee Health Science Center with a mailing address of 62 South Dunlap Street, Memphis, TN 38163. The applicant seeks to obtain an air contaminant permit (Division identification number: 79-0700 and 477742) for existing emission units at the following address: 62 South Dunlap Street, Memphis. The permit request is for the following: Thirteen natural gas-fired boilers with fuel oil backup and five diesel emergency engines located at multiple different buildings on the University of Tennessee Health Science Center campus. One human cadaver incinerator with afterburner control. Regulated air contaminants are emitted by these sources. Information regarding this facility can be found in the Division of Air Pollution Control Dataviewer link which can be found at the bottom of the Division of Air Pollution Control webpage. This permit may be issued as a combined construction and operating permit.

Justin Dolzen is the assigned Division person.
